CLUBS AT RPI

Clubs are an integral part of the RPI experience.

Finding people who share your interests is the easiest way to form meaningful and long lasting connections.

PROBLEM: CLUBS ARE STRUGGLING

COVID

A global pandemic forced most of the RPI population into virtual learning for almost 4 semesters. Online events are less attractive than traditional in-person events.

Seniors, often the most knowledgeable members of clubs, have been graduating with not enough new members to replace them.

GRADUATION

RESTRICTIONS

Even though we are back on campus, club events are still restricted in what they can do. No food, no off campus events beyond a select few local places, and it's harder to reserve rooms than it was pre-covid.

SOLUTION: CLUBBY

CLUBBY, is a web-based platform that aims to help clubs spread the word about their events. We want to help clubs recruit motivated members, and we want to help RPI students find groups that align with their interests.
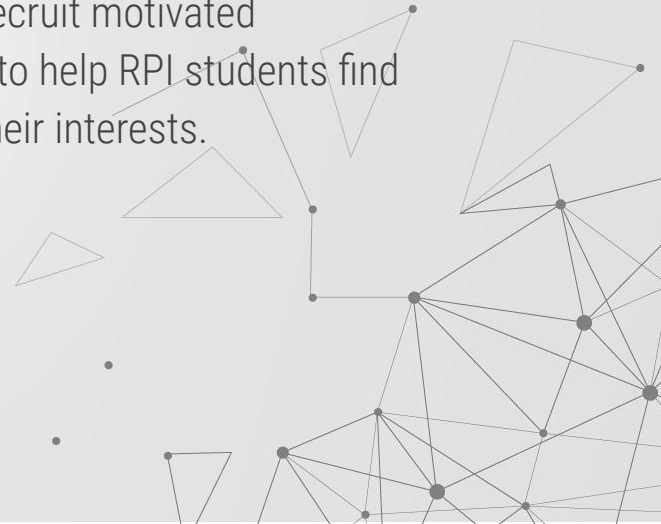

CLUBBY: USERS & FUNCTIONAL REQUIREMENTS

CLUBBY TARGETS TWO MAIN TYPES OF USER

CLUB OFFICERS

Club Officers are users who are using CLUBBY to advertise their club. Some Club Officer functional requirements include:

- Creating a club page
- Posting club events
- Posting club announcements
- Providing Club Seekers with an option to join club mailing list
- Assigning categories to their club page

CLUB SEEKERS

Club Seekers are users who are using CLUBBY to find clubs to join. Some Club Seeker functional requirements include:
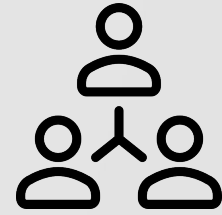

- Creating a Club Seeker profile
- Assigning categories to their profile that represent their interests
- Following club pages
- Viewing a live page of events happening across all clubs on CLUBBY
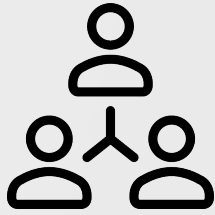

CLUBBY: STAKEHOLDERS

There are 3 main stakeholders who could benefit from CLUBBY

RPI

Club life is an integral part of life on campus at any college, not just RPI. RPI may be more attractive to prospective students if the diversity of clubs on campus is more apparent, ultimately benefiting RPI.

Companies

Clubs aren't just for fun, they can also be a very powerful tool for a student's professional development. If more students join clubs using CLUBBY, companies that hire these students may benefit from the experiences these students had in their time at RPI.

Parents

Students can find a variety of activities on campus through CLUBBY, which may reassure their parents that students are enjoying college life (safely).

CLUBBY: NON-FUNCTIONAL REQUIREMENTS

CLUBBY needs to be reliable - if we were to post an event to the live feed at the wrong time, users could lose trust

We need to ensure all data stored within the CLUBBY platform is legitimate

Events can happen during all hours of the day (2 AM Breakfast Club anyone?). CLUBBY needs to be available for whenever anyone needs to use it
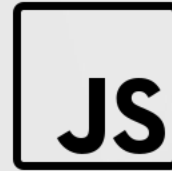

Reliability

Data Integrity
